Quezon City Polytechnic University

Letter Of Intent For Scholarship For QCPU

Respected: Sir/Ma'am

I am John Poul B. Galen, 21 Years Old I live here at 14 Hornbill St. A-3 Sitio Veterans Brgy. Bagong Silangan Quezon City. My mother's name is Maribelle B. Galen, 55 Years Old which is now working at Taguig City as a housemaid. She needs to work to help our father Gaudencio M. Galen, 60 Years Old and now suffering from emphysema and asthma. He was diagnosed with this illnesses 4 years ago and it is hard for us to maintain his medicine. We are six siblings. Two of them are having their own family. My only sister is living with us with her family. She's the only helping us in all aspects like foods, utility bills and medicine of our father.

I study my elementary and secondary at Bagong Silangan School. During my elementary days I'm not interested in studying but on my secondary level I realized that I should have to study hard to achieve all my dreams. I study hard and had a confidence and I make it. I got top in school. When I was in Senior High School at Eclaro Academy I really work hard to learn more to get a higher grades and tops, that I be use during college. Now I am enrolled at QCPU (QUEZON CITY POLYTECHNIC UNIVERSITY) as BSIT (BACHELOR OF SCIENCE INFORMATION TECHNOLOGY) student. I took exam last July and we are now ongoing for our finals in first year.

I can say that being a working student is very hard. From being a Lotto Teller, Construction Worker, Vendor, Researcher and many other jobs that I experience to earn money is not that easy that's why I study hard and want to finish college to become successful someday. I know it's still hard to work but it can become more easy when I become a degree holder someday. I want to repay all the sacrifices of our parents and I really want to have a better life someday. Just pray, work hard and be humble.

with your help. I know my sister and my mother is suffering and doing sacrifices for us.

We are three that still studying. Two are grade 10 student. I am college, I've been thinking about the tuition fee and everyday expenses when classes became face to face. If you had giving me a chance to become your Scholar. I promised to study hard, to maintain my grades and to repay it also by helping and doing task you are going to give me. Thank you so much in advance. It's been really a big help to me. I claim it. Thank you.

Sincerely,

JOHN POUL B. GALEN
